1.0 Introduction

Safaricom PLC, the leading mobile services provider in Kenya, boasts a steadily growing subscriber base. The company is consistently expanding and upgrading its systems and processes to align with the evolving needs of its customers. In pursuit of this objective, Safaricom continually seeks partnerships with competent and reputable suppliers and service providers to fulfill various requirements.

To this end, Safaricom intends to identify reputable and qualified suppliers who will be able to deliver and integrate Data Center Network and Office Campus Equipment.

2.0 Scope

The selected supplier will be responsible for supplying, implementing, supporting, and maintaining the Data Center Network and Office Campus Equipment.

The scope of the solution will constitute but not limited to:

- a) Supply & installation of Data Center Network and Office Campus Equipment.
- b) Support and maintain the Solution and platform as may be required from time to time.
- c) Provide training on specialized units to the teams.

The selected supplier **Must** have vast knowledge in design, deployment, integration, and commissioning of the data center network and office campus for Telco and IT services. The approach is to develop a fully redundant network that serves both fixed and mobile services capable of transporting both voice and data traffic with a carrier class resilience and reliability. The scope will also include a solution for replacement of equipment that is end of life. The proposed network will be a consolidated (shared) infrastructure. Client teams will request for ports and capacity for their respective systems and will not have to procure any connectivity (routing and switching platforms).

The full details of the scope will be provided in an RFP (Request for Proposal) that will be sent out to the successful suppliers shortlisted through this EOI process.
